THE ITALIAN OPERA. The agent of the Italian Opera Troupe informs us that the experiment of a short season in Nashville will be made, and that the first opera of the series-Lucia di Lammermoor-will be given next Thursday. For particulars, we refer to our advertising columns. The opera is considered the best of Donezerri's, and the story is taken from Scorr's novel of "the Bride of Lammermoor," with which all our readers are acquainted. Four other operas will be given, on alternate nights, no one being repeated. And the season closes with the fifth opera.

Although no Italian opera has ever been rendered in Nashville, yet a large class of our citizens are familiar with it. In New Orleans and in Europe they have improved opportunities for cultivating the taste which enables them to appreciate it. It is fortunate for the enterprise in question that is the fast; for it is undoubtedly true that an American taste for Italian music is an acquired one. It is a good deal like whisky and tobacco-at least in this. that nobody likes it at first, while most people become "addicted to it" by constant use. OLE BULL never receives such rapturous applause before a western audience as when he strikes into Yankee Doodle: and Strakoscu elicits a world more of enthusiasm when he gives us a medley of negro melodies, than when, from a master's touch, his instrument speaks the difficult music of the best Italian

It is, then, fortunate for the enterprise to which we refer that there are in Nashville and its vicinity enough who are familiar with the opera and who delight in it to insure it success. This class of our citizens have very liberally stepped forward to insure such a sale of tickets as shall guard against loss; and we do not think there can be a doubt that curiosity alone will be powerful enough to draw to the theatre a sufficient number of those of uneducated ears to fill it on each opera night.

We earnestly hope so. The entertainment is one to which the most rigid cannot object, and it is one which deserves and should command patronage.-We hope that the experiment will be so successful that, hereafter, we may twice a year be able to welcome the troupe to a longer stay.

Of the members of the troupe separately we can now have little to say. We speak of the troupe as a whole, and remark that it comes among us backed by the enthusiastic approval of critical audiences in the first cities of the Union. Mad. DEVETES has long occupied a first position as an artiste, and she is said to be very ably sustained by the other members of the troupe. The orchestra is a part of the company; and, of course, thorough and efficient.-We think there can be no doubt that the operas advertised will be as well rendered as they have ever been in this country, and we look to the taste and refinement of Nashville, so widely known and acknowledged, to see that the audiences are worthy

We refer the lovers of good wines, cigars, &c., to the advertisements of A. Kenn & Co., in this day's paper. We have been kindly furnished with a bottle of the genuine Heidsick for which this firm are agents, and also with some of their choice cigars. We do not hesitate to pronounce the wine goodfirst rate—and the eigars ditto.

A KERR & CO.

A. KERR & Co., are the regular authorised agents for Charles Hemster in this city, and all wine of this brand purchased of them may be safely regarde ! as genuine. They are selling by the basket, at manufacturer's prices. They also offer for sale a large assortment of other choice wines, among which is a pure article of table claret, which they are selling by the gallon. For further particulars see advertisement.

An insurance case was determined in the Supreme Court of New York which settles the principle of the validity of parole contracts, voluntarily insured by Fire Insurance Companies or their agents. The Baptist Church of Brooklyn held a policy for one year with the Brooklyn Fire Comsany, regularly renewed for several years, and by a verbal understanding with an officer of the company it was to be renewed every year without notice, and the Treasurer or Trustee of the Church, who was always to be found in Wall street, agreed to pay the premium when called upon. At the time of the great Brooklyn fire of 1848, the tenewal had been neglected at the office for some weeks, and no renewal receipts sent to the Trustee. The church was destroyed, and now the Court holds that the parole arrangements to renew binds the Company as fully as if the receipt had actually been passed.

LAST OF THE ERIE RIOTERS.-We learn from the Pittsburg Union that in the U.S. Court, on the 9th inst., Judge Irwin presiding, Messrs. Kirkpatrick, Killpatrick, Sherwin, and Lowry were discharged, on paying the costs of prosecution. It will be remembered that these persons were out on bail for confempt of court, in disobeying the injunction laid on the Erie railroad at Harbor creek.

Subsequently it was ascertained that the parties named had left without paying the costs in the case, and the court declared their recognizances of \$5,000 each forfeited and ordered warrants to be issued

The funeral sermon of the late Hon, Enwin Polk was preached in Bolivar last Sunday week, by the Rev. Mr. Born and the Rev. Mr. WALKER, The Odd Fellows were in attendance both at the church and the grave. Toe Democrat says the ceremonies throughout were very impressive, and the audience very large. Not one-half of those present could tind room within the spacious new Presbyterian Church, where the toneral was preached.

THE ERICSSON RAISED,-This vessel was successally raised on Thursday afternoon, and taken on the Government dock at the Brooklyn navy yard, permission having been granted by the commander of the navy yard. A dispatch says that her bull and machinery sustained little injury. The chief damage was done to her furniture and fittings.

A trotting match for \$2,000 between Geo. Alley's Eddy and Wilson's True John came off over the Union Course, L. I., on Wednesday-best three in five to wagons with weight, making 400. pounds. The race was won by Eddy. Time: 2:42\$ -2:421-2:40. This is said to be the best time over made in the United States,

ACQUITTAL OF MRS. HAYS.—This woman, who was tried last week at New York for the murder of Dr. Lutener, has been acquitted. The jury re-

turned a verdict in writing. The answer of the jury is-There has not been any evidence before the jury that Dr. Lutener committed suicide. Further, the jury believe from the evidence that Dr. Lutener came to his death by a pistol ball fired from the hand of some person with a small pistol that was found on the floor of Dr. Lutener's office. After a careful examination of the whole of the evidence that was allowed to come before them, the jury have come to the conclusion that the evidence is not sufficient to convict the prisoner, Clara Hays,

The Judge-The verdict, gentlemen, will, of course, have to be in the usual form. You will have to pronounce the verdict of "Not Guilty."

The Foreman-We find her not guilty. Mr. Blount .- Mrs. Hays will be discharged. In regard to Mr. Hays, I will take between this and Thursday next to examine his case, in view of the evidence that I have so far as he is concerned, and determine as to the course I shall parsue.

SPECIAL NOTICES.

No Family should be without them. -We speak of McLane's Liver Pills, which have become an indis pensable Family Medicine. The frightful symptoms which arise from a diseased Liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, poins in the side, with dry, hacking cough, are all the results of hepatic derangementand for these Dr. M'Lane's Pills are a sovereign remedy .-They have never been known to fall, and they should be kept at all times by families.

Directions.—Take two or three going to bed, every sec-

ond or third night. If they do not purge two or three times by next morning, take one or two more. A slight breakfall should invariably follow their use. The Liver Pills may also be used where purging is sim-

ply necessary. As anti-bilious purgative, they are inferior to none. And in doses of two or three, they give astonishing relief to sick headache; also in slight derangements of the I Purchasers will please be careful to nek for Dr. Mc. LANE'S Celebrated Liver Pills, and take none elec. There

Dr. Morse's Invigorating Elixir or Cordial. If it is inquired how this great restorative is accomplishing uch extraordinary cures, we can only reply that in the Arabian herb that forms its cardinal ingredient, have been dended, by the Omnipotent Physician, a large amount and greater varieties of carative properties than had heretofore been supposed to exist in an hundred different articles of the pharmacopora. A whole medicine chest of remedies, so to speak, seem to have been combined in this herb; and in the Elixie or Cordial we have their concentrated essence. t is the effect however, not the cause, with which we have o deal in the practical application of the medicine. The ricklus of dyspepsla are cured, the nervs are relieved. the half paralyzed resume their activity, the sufferers from head ache are tormented no more, the weak become vigorons, the tint of laundice leaves the complexion of the bilions, the depressed in spirits become bouyant, the sick in almost every condition of disease derives immediate benefit from the use of Dr. Morse's invigorating Elixir or Cordial. These facts, supported by irrefragable proof, are presented to the attention of invalids, who can verify them by a single bottle of the medicine.

This Cordial is out up, highly concentrated, in pint botties. Price three-dollars per bottle, two for five dollars, six C. H. 192 TOWN LOTS FOR SALE IN THE TOWN OF SEQUATOREE

THE undersigned will offer for sale on SATURDAY the 27th of MAY, to the highest bidder, 102 Lots in the town of Sequatchee. This town has been had off on the east bank of the Tennessee River, immediately opposite the Nickojack Depot, on the Nashville and Chaffanooga Railroad, 130 miles from Nashville, and 21 from Chatfanooga by the road, and 65 miles by the river. It is at the mouth by the road, and 65 tailes by the river. It is at the mouth of the Sequatchee Vailley, which for the amount and value of its products, is not surpassed by any valley in the State, and this is the natural point of trade for its whole population, being much the nearest and best where they can have choice of river or railroad transportation. This place is also destined to be the trading point for Dade county, Ga., and for several other large, and fertile valleys in our State. and for several other large, and lettile vallets in our State.

The site chosen for Sequatchee is a beautiful elevation far above overflow, overflowing the river and the depot, and it is confidentially believed, offers as many advantages to the enterprising Merchant, Mechanic and Manufacturer, as any enterprising Merchant, Mechanic and Manufacturer, as any point on the Nashville and Chattanaoga Railroad. As point of attraction, its claims are certainly not interior to any in the State, for a fine Charpbrate Spring runs out of the mountain a mile above the depot, and the Nickojac Cave, within a few hundred vards of the depot is acknow. edged to be the greatest natural cursosty within the bor-ders of the State, its chumbers and the beautiful strain which runs through it having been traversed for miles, lea-ing its termination yet to be explored. A coal mine is now being opened 5 or 4 miles from Se-quatchee, and a large number of hands engaged making a road to the Depot from the Coal Bank.

e wishing to buy lots can do so previous to and after he sale, by application to Gao. A. GRANT, at the Depot, or to H. A. Rurtanon near the premises, or to

It is for the cure of old Chronic Diseases that have been lingering in the system for years. HIGHLY IMPORTANT TO ALL AFFLICTED WITH

CHRONIC DISEASES.
For the present, then, let us pass to the causideration of the RESOLVENT, the second of the three R. R. R. Medi RADWAY'S RENOVAVING RESOLVENT is for the on the by some sustaining cause, for the Coemists tells us that inflammation is a low concealed combistion. And this cause is a deposit resulting from the inflammation whilst it

caise is a depose regarding from the inflammation which it is in an active or acute condition, for all disease is at one time acute before it becomes chronic. If a person has Curonic Rheimaxism, it is the result of a deposit in the fibrous tissue surrounding joints; if a person is Serofalous, these deposits often show hemselves in small lumps under the chin and along the neck; if we have a Constamption or tubes, it Syphilis, it occurs in every tassus and organ in the whole system, for that disease spares nothing. Now to cure these diseases, these chronic inflammation; (for it is this in every case,) it is matofest that the diseased deposits rendered pure and healthy, endered pure and healthy.

It becomes necessary, then, that the absorbents beactive
and the blood be purified. We therefore want a medicine

that will act on the absorberts and st nuclate them into ac-

depend merely on parifying the blood alone will scarcely ever cure chronic disease? to cosme success they must at first have the power to stimulate the absorbent, and re-move the diseased deposits. The action of the RESOLV-ENT is directed first to the absorbents, stimulating them note action; and second to the blood, which it depurates by its action over the glands, the liver, pancreas, kidness, &c, which are the sewers that nature has established for puritying the blood. You will after this description, well precinte the name we have given to the R. R. R. REMEDIES OF RENOVATING RESOLVENT. It resolves away diseased deposits; if purifies the bloost and it renovates the system. Tomors are removed and dispersed by its operation. Chronic Swellings are dissipated; Notes are suffered and melted away. The most loathsome Skin disease disappear under its action; Scroulous constitutions are soon amended and the disease checked wherever it has attacked the ayson. Syphilic with all its horrible train of concunitant, are finds a certain and infallible cure, and Consumption too, oftimes finds its master—Consumption, that prevalent and immentable disease of the lungs, tunt is so well known ne you all, from its fatal and sinnest helpless character, and

the have it produces among the young the most gilled and the most beautiful of the human race, deeping over our rials with an insidious yet awful cerumity, and con an early and premature grave its yearly becatomits of vic-time. Tubercular Consumption is often regarded as a specific dosease of the longs atone. This is a mistake, it is not one of the forms of Scrolula - it is a Scrofulous deposit and inflammation of the bing structure, and could be us earlily cured as any other Scrofulous disease—such as tickets, Itip Compisint or white swelling—if it was not for the peculiar structure and action of the lu-gs in which The lungs expand and contract during every respiration: and from the moment the first breath or life is drawn, un-til the last guttural sigh passes from the dying invalid, a

never-cooling action is lept up on their part. It will read-ly be conceived then, how difficult it must be for an ulcer of the lungs to heal, where it is continually kept irritated by the act of breathing.
Understand, then, we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of the lungs, as it is for other Chronic diseases. We believe it will cure Scrofula in any other part of the body, but from the very nature of the case, this complaint—except in its first stages—is of times incurable; but we can recommend it as the most certain remedy (when taken as directed in

our parophlets) that we puesess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the Renovating Resolvent. What the relief is to Acute disease the Resolvent is to Chronic it resolves away the foreign and diseased deposite; it purifies
the blood and if renovates the system. No. 3. We now request the reader suttention to the third

JULE R REMEDIES RADWAY'S REGULATORS.-Every pill taker should examine the theory on which the Regulaturs are founded. Every one "who takes pills" will find Radway's Regula-tors the most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use.
We have hitherto been treating of disease or initial tion in its acute or chrome state, and its remedies; the RE-LIEF on one hand and the RESDLVENT on the other. We now pass to the consideration of that state of the system immediately praceeding disease or inflammation, viz. Irreta-tion. To allay irritation of the nervous system, and re-move its effects wherever it exists, and to aid the KLLIEF or RESOLVENT in treatment of inflamonation, are the chief purposes of the REGILATOR.

But how is nervous irritation the cause of disease? Because the glands of the system a countrolled by the brain

and pervous centers, and whatever irritates the brain causes irregularities of the glands, and when the glands refuse to do their work, the fortegu matter which it is their duty to remove, is left in the blood, and mereases the already existing irritation. The glands are severs of the system, and are composed chiefly of the Liver, the Kidneys, the Pancresse, the Salivary Glands, and those of the skin, and intestinal sanal. Now, a regular and honest action of diese organs are maispeneable to keeping the blood in a pure and organs are non-pensance to keeping the broot in a pure and natural state. If we give you poison instead of food to eat, you can easily understand that the blood will be corrupted by it, and diseased action will follow, and it will be jet as surely corrupted if the glands do not abstract the worn out Again if the Sidneys be interfered with in their action

from any irritation whatsoever, why then we have the sales of the urine the passoons area circulating in the blood, producing headaches, coma drowsmess, &c. And, fast, and most important of all, if any existing causes interfere with the operation of that great laboratory, the layer, behold the disastrous effects. The bile, instead of passing into the intestines to aid them in their move ments, for the bile is Nature's purgative, is left to circulate in the blood, the bowels, therefore, become mactive and th emponent of bile) circulating in the blood is the cause of the fivers of the system. The superabundance of the car-bon is the blood meeting with the oxygen as it passes thro the lungs is slowly consumed, and gives out a superabun-dance of heat, and this is lever. RADWAY'S RESULATORS induce a healthy regular-

ity of glandular action. No costiveness, or dyspepsia, or indigestion, or paths in the side, or fiver complaint, or paths in the kidseys, will treatile you if Badway's Regulators are taken; and we positively assure all who are afflicted with these dystessing complaints that Radway's Regulators will

cure them.

R. R. R. Remedies are suited to the treatment and, unsided, will core most of "like that flesh is her to." The sanguious y practice of the lance; the cupying glass, and leeches, they entirely dispense with, and banish forever the permissions use of that baneful drug, caloniel.

If you be ack, we advise you to resort at once to the R. R. R. Remedies, as the most prompt in their action, the most safe and effectual of remedies.

Instances of diseases prevented, of rapid cores, and almost mirroulous recoverie, we can furnish you the certificates and eredentials without number.
